Health & Safety – Good Practice 012

Over the Glasses (OTG) Safety Glasses

Overview

Good quality safety glasses protect staff from potential eye injury during work. However, normal safety glasses are not fit for purpose for wearers of prescription glasses.

Bridgeway Consulting have sourced a good quality, fit for purpose OTG safety glasses which are specifically designed for wearers of prescription glasses. These OTG safety glasses provide both safety and comfort to the wearer.

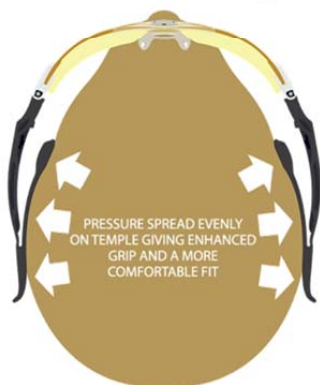

Important Features for Safety Glasses

Anti-fog coating - The anti-fog coating allows staff to work in optimal conditions by removing the effect of condensation that occurs when there are large temperature differences or when wearing non-ventilated frames.

Anti-scratch coating - The anti-scratch coating acts as a shield that improves the resistance of lenses and reduces the formation of scratches. It lengthens the life of the lens and improves

OTG Safety Glasses
H60 ERGO Temple Cover Spectacles

OTG Benefits

- OTG lenses gives good fit for prescription spectacle wearers
- Comfortable, self-adjusting and secure fit to user's head
- Swaying ergo temple pieces will spread the pressure evenly across user's temple area
- Temple ratchet adjustment works closely with the ergo temple to help the user wearing the product with different pantoscopic angles, suitable for all head shapes

The OTG safety glasses are available from:
